# MARTHANDAM COLLEGE OF ENGINEERING AND TECHNOLOGY
## Department of Electronics and Communication Engineering
### Assignment no 4

Name            : Shivolin mol . G
Register number: 961619106013
Team ID         :PNT2022TMID51798

**1.Write Code and connections in wokwi for ultrasonic sensor. whatever distance is less than 100 cms send "Alert" to ibm cloud and display in device recent events.**

## Code

```
// put your setup code here, to run once:

  const int TRIG_PIN = 7 ;
const int ECHO_PIN = 8;

//Anything over 400 cm (23200 us pulse) is "out of range"
  const unsigned int MAX_DIST = 23200;
 void setup() {

// The Trigger pin will tell the sensor to range find
  pinMode(ECHO_PIN, OUTPUT );
  digitalWrite(TRIG_PIN, LOW);

  distance sensor
 //Set Echo pin as input to measure the duration of //pulses coming back from the

  pinMode(ECHO_PIN, INPUT ) ;
  // We'll use the serial monitor to view the sensor output
  Serial.begin(9600);
  }
  void loop() {

   unsigned long t2;
   unsigned long t1;

    unsigned long pulse_width;
     float cm;
      float inches;

// Hold the trigger pin high for at least 10 us
 digitalWrite(TRIG_PIN, HIGH);
 delayMicroseconds(10);

 digitalWrite(TRIG_PIN, LOW);
 // Wait for pulse on echo pin
while (digitalRead( ECHO_PIN )==0 );
// Measure how long the echo pin was held high (pulse width) // Note: the

 micros() counter will overflow after-70 min
  t1= micros ();
```

```
  while (digitalRead(ECHO_PIN) == 1);
  t2= micros ();
    pulse_width = t2-t1;

// Calculate distance in centimeters and inches. The constants
//are found in the datasheet, and calculated from the assumed speed
// of sound in air at sea level (- 340m/s)
cm = pulse_width/58;
inches = pulse_width/148.0;

//Print out results
if (pulse_width>MAX_DIST ){
  Serial.println("Out of range");
}
else {
  Serial.println("**********************************");
  Serial.print("The Measured Distance in cm: ");
  Serial.println(cm);
  if( cm < 100 ){
    Serial.println("ALERT!!");
  }
  Serial.print("**********************************");
}

//wait at least 1000ms before next measurement
delay(1000);
}
```
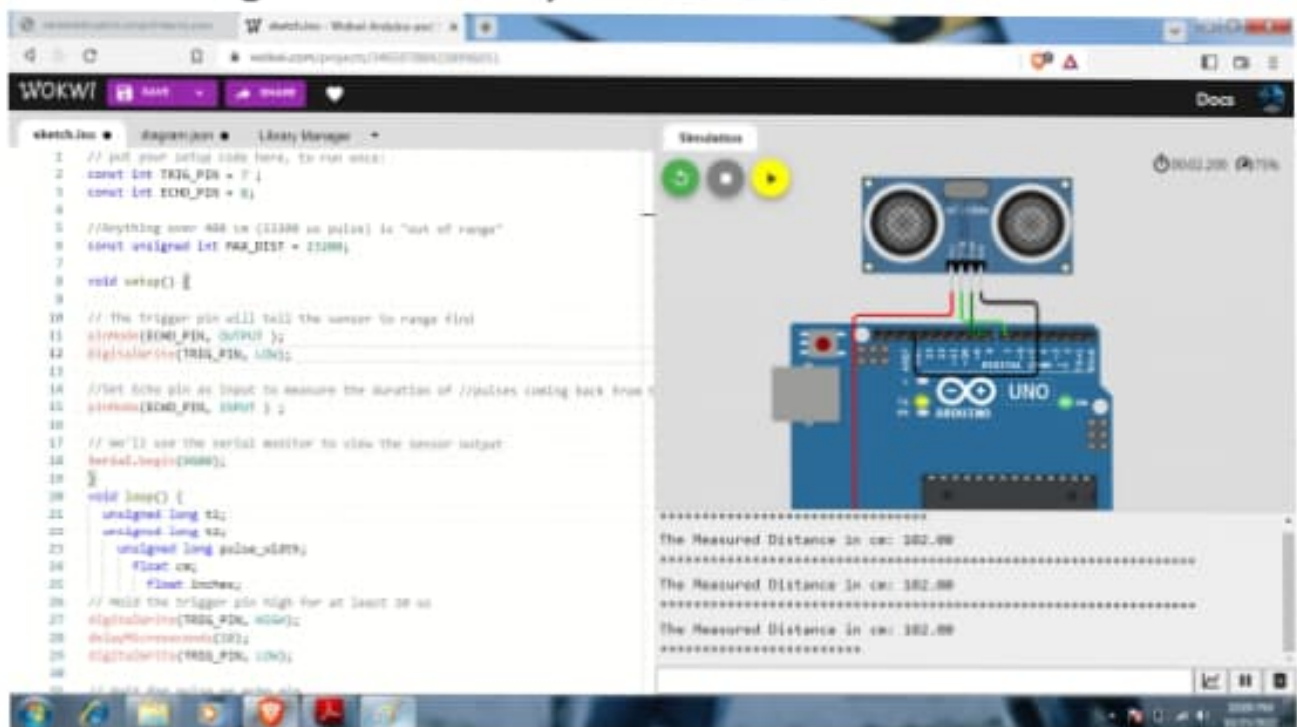

# If distance is greater than 100,it will not alert.

# If distance is less than 100,it will alert.
